

# Nightfreight logistics

*Focused logistics from a highly intelligent network*

# Nightfreight integrated network logistics

- *Delivering competitive advantage*
- *Combining the benefits of dedicated distribution with a comprehensive network*
- *Optimising resources to maximise service and minimise costs*

## The elements

### Dedication

- When service demands it
- When cost justifies it

### Network Capability

- Outlying areas
- Smaller consignments
- Differing service requirements
- Seasonal and volume peaks
- Trunking fluctuations
- Pacemaker 'two man' business and home delivery and installation

### Network Infrastructure

- Vehicle bases and cross docks
- Local management focus
- Local supervision and handling
- Warehousing/strategic handling

### Management

- Core dedicated Contract Management
- Nationwide 24 hour cover

### IT

- One common track, trace and MIS system

## The resources

### Services

- Logistics

- Pacemaker customised 'two man' home and business system

### Locations

**4 Sortation hubs**

**50 Network depots**

**7 Logistics sites**

**3 Pacemaker sites**

**Strategic warehousing**

## The advantages

A bespoke service capable of delivering the complete spectrum of consignments, from docpaks and parcels through to IDW freight and 'two man' shipments, via network or dedicated resources.

A service that brings together the benefits of dedication together with the flexible cost and operating structure of a broad network.

A varied distribution solution supported by one common track and trace system.

- Service focused
- Cost effective
- Resilient and flexible
- Controlled and secure
- Off balance sheet
- Experienced
