

*"It's Personal"*

# Express Freight

Nightfreight's overnight express freight service is unique in its ability to handle all shapes and sizes of products from documents to full pallets to difficult to handle items.

Our innovative, flexible and practical approach means that customers do not have to spend hours matching differently sized packages to different suppliers.

This is why Nightfreight is the undisputed UK market leader in mixed parcels and difficult to handle freight.

**Nightfreight can handle it all whatever the requirements.**

Customers can choose from a range of delivery options including: 24 hour, 72 hour, pre 09.30, pre 12.00 and Saturdays. Nightfreight provides customers with fast, reliable information with online POD, track and trace, vehicle tracking and satellite navigation.

The delivery of items that are difficult to handle is a core service. Last year Nightfreight successfully delivered thousands of unusual items – including lamposts, tractor tyres, building materials, automotive parts and other industrial items to business addresses. We also make home deliveries of sports & leisure equipment along with a broad range of other consumer items.

***Every delivery is as crucial to Nightfreight as it is to its customers.***
