

"It's Personal"

# Dedicated Contract Logistics

Nightfreight offers key blue chip customers a dedicated contract logistics service. We can create bespoke, flexible solutions to make costs more variable and maximise service benefits through our business to business or home delivery networks.

## Delivering competitive advantage

Nightfreight works closely with its customers to assess their requirements and build bespoke logistics solutions backed by effective contract management, comprehensive MIS systems and web based linkages.

Employed by many household names, Nightfreight Contract Logistics covers a broad range of industry sectors. These include retail, automotive components, educational, office supplies and mechanical handling equipment.

### Customers can benefit from:

- a nucleus of dedicated vehicles as a stand-alone operation or in combination with our network
- variable costs through this shared resource network
- high service levels with reduced inventory
- a greater ability to handle volume fluctuations

# Case Studies

## Office Depot

Office Depot is the country's leading supplier of office products, specialising in providing cost effective and efficient supply solutions to businesses and consumers.

**"We really do work on an open book basis with Nightfreight. The key to the partnership is Nightfreight's willingness to listen and act without the usual bureaucracy"**

Office Depot

Viking Direct mail order customers receive a mix of catalogue mailings throughout the course of the year. The Viking Direct

business is the clear leader within the direct-mail office supplies channel.

Nightfreight has been working with Office Depot for over 15 years, making daily, timed deliveries to fulfil all customer orders. These operations cover the West Midlands, Norfolk and the South West. Nightfreight is also responsible for part of London, operating from Office Depot's sites at Belvedere and Heathrow.

Nightfreight operates around 100 dedicated vehicles and delivers over

**Office DEPOT.**  
*Taking Care of Business*

13,000 consignments per day on behalf of Office Depot.

Nightfreight has an unrivalled national distribution network capable of handling items of all weights and dimensions and the strength of this infrastructure enables the company to offer Office Depot a highly cost effective, efficient service. By working together the two partners have consistently improved performance.

## Vaculug

Vacu-Lug is Europe's largest independent re-treader of commercial and industrial tyres.

Vacu-Lug required a logistics partner that could meet the company's high quality standards and support its round-the-clock operation.

As the largest, most experienced independent re-treader of commercial and industrial tyres, Vacu-Lug prides itself in being first to market with any service innovation that offers benefits to its customers. Therefore, it was critical that any logistics partner

demonstrated a flexible, forward-thinking approach to adapt to Vacu-Lug's changing distribution needs.

Vacu-Lug appointed Nightfreight as its dedicated supply chain partner to handle the logistics requirements for its operation across the UK.

Under the agreement, Nightfreight collects new and retread tyres from Vacu-Lug's facility in Grantham and transports them nationwide via its network of regional hubs to Vacu-Lug's 300 strong customer base. Nightfreight also collects used casings on a nationwide basis as part of the logistics solution.

**"Nightfreight has more than proven itself with an on-time, in-full delivery programme that has far exceeded our expectations. We are confident that Nightfreight will continue to play an important role in the growing Fleet Management area of our business which requires us to help keep organisations on the road 24/7."**
